The amendment to the specification and claims, filed January 2, 2004, complies with the requirements set forth in 37 CFR §1.173 and has been entered.

Applicant's arguments, see paper no. 9, pages 2-4, and pages 11-12 filed January 2, 2004, with respect to the emended subject matter of the specification concerning the change to "Fluid entering any of the ports encounters a chamber and channel leading to up to three diverter valves" have been fully considered and are persuasive. This rejection of the claims has been withdrawn.

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

Concerning applicants comments regarding the oath, changes to a patent specification, when made in a different manner than that accompanying the originally filed oath are considered not covered by the original oath. A supplemental oath (form PTO/SB/51S available at <http://www.uspto.gov/web/forms/index.html>) must be filed.

Claims 1-16 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

Art Unit: 3753

Additionally, the original patent, or a statement as to loss or inaccessibility of the original patent (form PTO/SB/55 also available at the above web site), must be received before this reissue application can be allowed. See 37 CFR 1.178.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
